

Funeral Program Collection

Accession:

Unknown Date

A compilation of funeral programs for Pinellas County residents and for some family members and friends who lived outside of the county

Various donors

Description:

The funeral program collection consists of over 200 programs ranging from 1958 to 2008. A majority of the programs are from churches in Pinellas County, Florida and the surrounding area, with a few from out-of-state. The programs typically contain a photograph of the deceased, an obituary, a list of surviving relatives, and the order of service.

The collection provides extensive genealogical information about the deceased, including birth and death dates, maiden names, names of relatives, past residences, and place of burial. Alongside this genealogical information, the obituaries provide a rich source of local history about African Americans. Many of the people included in this collection were prominent in their communities, and many were involved locally in the struggle for civil rights.

The collection has been maintained in one series.
