

Birth Records of Babies Delivered by Midwife Della Jackson

Accession:

Unknown Date

Attendant's records kept by midwife Della Jackson who was required to collect and report the information to the Bureau of Vita Statistics in Jacksonville, Florida.

Donated by Mrs. Rosalie Robinson, granddaughter of Mrs. Della Jackson

Description:

Mrs. Della Jackson, a midwife from Clearwater, Florida, delivered more than 500 babies between the late 1930s and the late 1960s. Most of these deliveries took place in the parents' homes.

African Americans were banned from the local hospitals in Pinellas County during the days of segregation. Mrs. Jackson was the first African-American midwife to assist a physician in delivering babies at Morton Plant Hospital in Clearwater. These deliveries took place in the basement of the hospital.

This collection consists of information obtained by Mrs. Jackson about the babies she delivered. It has been maintained in one series.
